

TRU-GUARD™ COMPOSITE EDGE FROM HUTTIG® TAKING FLORIDA BY STORM

Introducing Therma-Tru® Tru-Guard Composite Edge Now Available from Huttig

Your customers live in Florida, so chances are, they've experienced a tropical storm or two. Good news: with Therma-Tru® Tru-Guard™ Composite Edge, a new program available from Huttig®, you can help customers protect against the damaging effect of Florida's extreme climate conditions.

With Tru-Guard, your customers get the same uncompromising quality of a Therma-Tru fiberglass door, plus six sides of protection to ensure the door's lasting beauty—and the backing of a Lifetime Limited Warranty and a Florida Warranty Rider.

For Fiber-Classic®, Smooth-Star®,
& Pulse® Fiberglass Doors

Completely composite exterior including
top and bottom rails and durable
fiberglass door skins

Protects from water absorption and rot on all
six sides—perfect for Florida climates

Available in 6'6", 6'8", 7'0" and 8'0"
heights to fit more openings

**Offer your customers protection from the elements—contact your
Huttig rep about this new program for Therma-Tru doors today!**
